Subject: Site inspection for United Heckathorn Five Year Review

Hi Jim,

I hope you are well. The next Five Year Review for United Heckathorn is due in 2016, and one of the requirements is a site inspection. As you may recall from 2011, this primarily involves walking around the site, particularly the cap, and does not require boat access. The visit is also unrelated to the sampling access disputes between Levin Richmond Terminal and Montrose's consultants. The US Army Corps of Engineers is conducting the site inspections this year under an agreement with EPA, and the person looking at the Bay Area sites asked whether January 11 or 15 might be an option. If those dates won't work, others are possible. If you have any questions, please let me know.

Thank you, and Happy New Year!

Rachelle Thompson, MS, PE
